thingssimple.net

CAPABILITY STATEMENT

Core capabilities

- Prototypes and design iterations
- Short-run production parts
- Jigs, fixtures and gauges
- Replacement and discontinued parts
- Branded, display and promo items
- Wholesale products for resale

Why buyers use us

- Instant online pricing for standard parts; business quotes within one business day
- Large format to 800 × 800 × 1000 mm in a single piece
- NDA on request; your files are never shared or reused
- One point of contact from quote to delivery
- Invoicing through Stripe: card or bank transfer; PO accepted

Equipment

Bambu Lab P1S	256 × 256 × 256 mm
Elegoo Centauri Carbon	256 × 256 × 256 mm
Bambu Lab A1	256 × 256 × 256 mm
Elegoo OrangeStorm Giga	800 × 800 × 1000 mm

Materials

PLA	Crisp detail, wide color range, rigid
PETG	Tougher, more heat and chemical resistant
ASA	UV and weather resistant
TPU	Flexible, rubber-like

Specifications

Process	FDM (fused deposition modeling)
Standard settings	0.2 mm layers, 3 walls, 15% infill. Finer layers and stronger infill on request.
Dimensional accuracy	About ±0.5 mm on most features. Tell us which dimensions matter and we orient the part for them.
Accepted files	STL, 3MF, STEP, OBJ, IGES. Drawings and photos for reverse engineering.
Capacity	Four printers. About 200 small parts a week today. Larger runs are scheduled across weeks.
Quote turnaround	Instant online for standard prints. One business day for large format and business requests.
